

## Title Brazil: Labeling Requirements

- The label language must be printed in the Portuguese language. Other languages can be added.
- The writing on the labels should be clear, permanent, and indelible.
- The size of the letters cannot be smaller than 2mm.

### Required Information on Labels:

#### 1. Fabric composition of the product

- stated in decreasing percentages to the total of 100% - for example:

*50% cotton*

*30% polyamide*

*20% acrylic*

- Generic names of the fiber or filament and its percentage must be indicated (cannot use commercial names such as Nylon, but rather *polyamide*)
- In case of pure products, it must state: *100% cotton* or *pure cotton*
- When one fiber represents 85% or more of the product, only that fiber needs to be noted, ex: *Cotton 85% or at least 85% cotton*
- When a fiber represents less than 10% of the product, the following text can be used: *9% other fibers* or *other fibers 7%*

#### 2. Name of the producer (the name can be replaced by a trademark)

#### 3. Corporate tax identification Number.

#### 4. Country of origin without abbreviations ( ex. United States of America),

#### 5. economic blocs cannot be used ( ex: NAFTA).

#### 6. Quality Control Certification (ex. ISO 9000)

#### 7. Washing instructions.

#### 8. Remnants must also have percentage of fibers used.

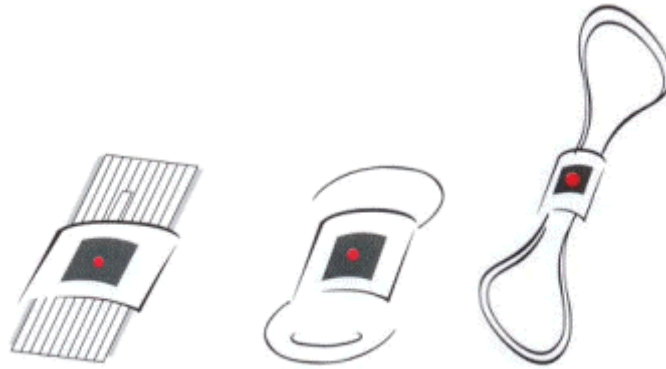

#### 9. T-shirts, towels etc. must show size ( S, M, L, etc.) and washing symbols.
